FIRE WRECKS THREE ARROWWOOD BUILDINGS

Arrowwood suffered a disastrous fire Sunday, starting in the billiard parlor and involving a total loss of three buildings—the Alberta Government Telephone office, R. H. Anderson's billiard parlor, and Norton and Beagle's implement office. Significant damage was done to the bank of Nova Scotia, the Rex cafe, and B. Jones' office.

Total loss amounted to about \$10,000, but all buildings were partially insured. The alarm was given by Joe Dumka, night operator at the telephone office. Residents of the town turned out to help fight the flames.

Norman Horning and Henry Anderson were badly burned about the face and hands, and Dr. Leisner gave immediate medical attention. Water tanks supplied by A. Henry and J. Beagle hauled water and two chemical engines gave service.

All telephone lines were cut off due to the "central" office being destroyed. If it had not been for the heavy rain Sunday morning, it is doubtful if the Bank of Nova Scotia could have been saved.

ARROWWOOD NEWS ITEMS

(Too Late for Last Issue.)

Mr. Jas. Shearer and family and Mrs. J. M. Weins and daughter Loretta were shopping in Calgary Saturday.

M. C. E. Bowman was in Okotoks on business Tuesday.

Mr. and Mrs. Ross Townsend and family have moved to Staveland. Mr. Townsend was with the U.G.G. elevator Co. here and will have the same position in Staveland.

Mr. S. B. Reid has been visiting with her mother in Calgary.

School closed on Tuesday of last week. Mr. J. R. Shearer will graduate in Edmonton during July and he and his family are planning to spend the rest of the summer on his farm at Foremost.

Miss Isobelle Mackie and Miss L. Spencer are going to summer school in Edmonton.

Mr. and Mrs. L. H. Traxler and son Howard and Arthur Saunders spent Friday in Calgary.

Mr. and Mrs. R. R. Saunders and son Arthur left Monday for Vancouver where they will spend July and August. Their daughter Gwendolyn, who has been attending the St. Clair School for girls in Vancouver, will join them on their arrival.

Mr. and Mrs. John Culp returned Wednesday from Boulder, Colo., where they attended the annual conference of the church of the Brethren.

Mrs. Guy Lockhart and small daughter Eileen have been visiting Mrs. Lockhart's sister, Mrs. T. T. Williams the past week.

M. H. Ward was in Calgary Thursday.

Mrs. Jack McLeod and Jack, Isabelle and Jenn left Saturday for a car trip north, including Sylvan Lake.

Mr. A. L. Ingraham and daughter Verna left recently for an extended visit in Vancouver.

Judge Mitchell was an Arrowwood visitor Saturday.

About 75 people of the United Church gathered at the river with well filled lunch baskets on Thursday evening, complimentary to Rev. and Mrs. Corcoran who leave the Gleichen pastorate to take up residence in

ANNUAL CONVENTION U.F.A. ASSOCIATION WED., JULY 15th

The Gleichen Provincial Constituency U. F. A. Association will hold its annual convention in the Memorial Hall, Strathmore on Wednesday, July 15th beginning at 10 a.m.

J. C. Buckley, M.L.A., will be present to give an account of his work at Edmonton and to go into detail upon any matter that took place in the Legislature, upon which anyone should desire information.

Notices have been mailed to all the U.F.A. Locals in the riding, urging that a full quota of delegates be sent, and as many others as possible.

Mr. Priestly, vice-president of the U.F.A. will speak in the afternoon on co-operative buying as sponsored by the central office.

A picnic dinner is being planned. The use of the Strathmore park has been kindly offered to us for that day. So bring full baskets. We will eat in the Hall dining room if the weather does not permit the use of the park.

Please consider this notice as a special invitation to be present at the annual convention of the association that elected Mr. Buckley to the legislature.

The Board of Directors,
G. C. MELANDY, Sec.

CHAUTAUQUA

To those of the Gleichen district who have enjoyed, and profited by Chautauqua during the past twelve years, may I say this:

When the 100 men and women sign the contract for the return of Chautauqua, they do so feeling that when the tickets arrive and are put on sale, that 400 of their neighbors, who are just as badly in need of mental diversion, will step up and say "Neighbor you made it possible and I want to relieve you of one \$3.00 ticket." I know it is going to be hard, this year, but let's not leave the load of responsibility on the shoulders of a few willing ones. I suggest that a show of hands be given towards the last night indicating our desire, as to whether we shall have Chautauqua next year, and let this show be our guide as to whether the contract is accepted or not. If we can't have it the only thing to do is not to order it.

H. H. ELLIS,
Chairman, Local Committee.

Three Hills. The usual picnic sport were enjoyed and all joined in sending their best wishes with Rev. and Mrs. Corcoran in their new field of work.

Mrs. M. Ward and young son Jackie entertained the following ladies and their wee ones at tea on Tuesday. Mrs. Joyden Ingraham, Mrs. Everett Brubaker, Mrs. E. J. Leisner, Mrs. Dodd House and Mrs. Lockhart. Mrs. T. T. Williams was also present.

Several delightful socials have taken place this week honoring Mr. and Mrs. L. H. Traxler who left the first of July for a residence in Purple Springs, Alberta. The Traxlers leave a host of friends who wish them well in their new home.

The annual C.G.I.T. camp will open on the Bow river three miles from Arrowwood with Miss Jennie King of Coaldale as camp director assisted by Miss Parker of High River, Miss Joyce Clark and Mrs. Don Devereaux of Vulcan. Mrs. Northcott of Milo will act as camp mother and Mrs. J. W. Mackie of Arrowwood as cook and secretary. Miss Davidson, our municipal nurse will be in attendance during the entire camp session. A quite a few girls are expected.

Arrowwood defeated the beer parlor proposition on Saturday by a vote of 71-52.

Commemorating Irrigation Project

Next Wednesday, July 15th, at 12:30 p.m., the ceremony of officially opening the Gleichen pressure irrigation system will take place. Speeches will be made by prominent people of the surrounding towns and cities and the water turned on at the fountain, on main street, by a prominent engineer. At the same time all the garden hose and sprinklers in town will be turned loose to demonstrate what pressure pipe irrigation will mean. A parade will then be formed to see the sprinklers in action and will wind up at the eight acre artificial lake at the east end of the fair grounds which is an ideal bathing and boating resort. Here those who have brought their lunches along will be able to eat. Plenty of hot water will be provided for those who wish to make tea or coffee etc.

After dinner numerous sports will be staged such as chuck wagon, democrat, travois, and barrel turning races. Spots galore will be provided for the children and cash prizes will be given the winners. Two good baseball games both afternoon and evening will be played by Arrowwood, Rockyford and Gleichen. As these teams play high class ball this will be something of interest to the baseball fans.

In the evening, a great carnival and dance and the giving away of the two year old Holstein heifer have been put on the program to climax the closing of a perfect day.

It may be of interest to here give an outline of how the idea originated to irrigate the town by the pressure system. It took many months and much work before the present system was developed. Twenty years ago the C. P. R. wanted to bring irrigation into town, plant trees and beautify the place but for some reason or other the members of the council killed the idea. Years went by and the citizens began to realize that irrigation made

a town beautiful. Strathmore, Bassano and Brooks demonstrated that irrigation and trees began to be talked about until finally the Board of Trade organized a party, of as many citizens as could get away, to visit Bassano and Brooks. On arriving at these towns the officials there took the Gleichenites in charge and showed them what water would do in making a town beautiful also grow almost anything. For days afterwards about all the visitors could talk about was what irrigation would do, and how it helped to make a town look beautiful. The Board of Trade got busy and put a petition in circulation asking the town to put in a irrigation system. The town took it up and talked about ditches for the water, but it was soon found out that owing to the peculiar way the lay in town that it would almost be impossible to properly irrigate the entire town. The pressure pipe idea was then evolved and in that way every piece of property in town could be served and water cost in the neighborhood of \$15,000. At the suggestion of some of the Board of Trade members the idea was advanced that a reservoir should be created at the east end of the fair ground so that when there was no water in the ditch, owing to farmers irrigating, there would be plenty in the reservoir for the town irrigation system. Furthermore this lake could be used for bathing and boating purposes and by planting trees would in time become a place of

beauty and pleasure resort. These ideas have all been carried out. Approximately 500 cuttings of trees were planted but owing to lack of water this spring died. Next year the trees will be planted again and irrigated. At the south end of the lake, where the pump house is located and the water is about 12 feet deep, a diving board has been constructed where all kinds of fancy dives can be performed.

Everybody in town is especially requested to decorate their property, what ever way they can so as to give the town a gala appearance.

The mayor and councilors request the ratepayers to clean up their properties remove all papers and tin cans and to trim their hedges, etc., and to make their properties and streets look as attractive as possible for the 15th of July. The co-operation of all ratepayers will be appreciated.

LADIES CIRCLE ENTERTAIN AT SURPRISE PARTY

The ladies circle entertained at a surprise party last week at the home of Ensign and Mrs. Sutherland for Mrs. Corcoran on the occasion of her departure for Three Hills.

Tall tapers and red carnations formed an attractive table decoration from which a dainty buffet lunch was served.

Wee Gracie Sutherland presented Mrs. Corcoran with an autograph album in which all the guests inscribed their name.

Immediately following Gracie retired to enter again, accompanied by her brother Master Alvin, drawing a beautifully decorated wagon in which rested a pyrexia casserole and two pairs of lovely towels, tied with pale pink tulle on the top of which resting a bouquet of carnations and fern added to its dainty charm.

On behalf of the gathered friends, Mrs. Greer made the presentation and spoke a few well chosen farewell words.

The invited guests were Rev. and Mrs. Corcoran and Misses Helen and Lorna Corcoran, Ensign and Mrs. Sutherland, Alvin and Grace Sutherland, Mesdames, Farquharson, Greer, Mc-

Intyre, Gorrill, Ady, Murray, Drinnon, Sather, Robinson, Beach, Jeffers, Matteson, Neil, Blackwell, Ostrander, Pinder, Kappel, Ellis, G. Walker, Sanders, Schriber, McArthur, C. Evans, Cook, Clarke, Eason, McMillan, Wilson, Christenson, Walker, A. McBean, D. McBean, W. E. Thompson, J. W. Hutcheson, J. C. Hutcheson, McDowell, S. Dafee, R. Hunter, J. Bogstie, Misses S. Cook, J. Cook, C. Plante, M. Van Volkenburg and G. Greer.

CRAIGANTLER AND DISTRICT NEWS

H. B. Grant has returned from a pleasant trip to the States. He says conditions are good there compared to what they are here.

The Standard and Craigantler boy scouts are camped on the river south of Gleichen under Mr. Hugh, Mr. Knowlton and Mr. Clark. They are having a good time.

The Craigantler School closed on Tuesday last all passing except two.

The rain and wind and cold weather has set the grain back, and it is too cold for this time of the year.

Craigantler school is the place to send children if you want them to get through the grades in short notice.

The Gleichen branch of Canadian Club arranged a special treat for the school children on the occasion of the 1st July celebration. A free picture show was held in the Community Hall when a number of educational films from the University of Alberta were shown. The films depicted the saving of pine-apples, aerodynamics, the care of teeth and other similar subjects of highly interesting nature. N. T. Purcell, president of the Canadian Club, occupied the chair. Thanks are due J. F. Gorrill principal of the Gleichen High School for granting the moving picture machine. Miss Alvin Robinson entertained on the piano and Miss Betty Kelly rendered a number of solos on the violin. Community singing was also much enjoyed. The Canadian Club is also indebted to the Community Hall Association for the free use of the large auditorium in the Hall.

'Fresh from the gardens'

Nationalism vs. Internationalism

This old world is in a state of confusion worse confounded. Everywhere acute problems of one kind or another demand solutions. And almost everybody has some pet theory or plan to advance as a sure cure-all, but upon analysis they are found to be impractical and more likely than not to create greater problems and difficulties rather than solve existing ones. People's thinking appears to be muddled.

Like hundreds of others, the writer of this column has for months past been reading reports of debates in various parliaments, speeches and interviews by public men, by economists, by financiers, by transportation executives, resolutions by the hundreds passed by political conventions, farmers' meetings, manufacturers' bodies, church assemblies, and what not. He has read voluminous articles on Russia's "Five-Year Plan," on banking and currency, on trade and tariffs, on unemployment and unemployment insurance, over-production and under-consumption, war debts and war reparations.

And with what result? Just this, and it is passed on to the readers of this column for what it is worth. The conclusion reached is that the world is at war today just as truly as it was during the years 1914-1918, and that all people are suffering because of this warfare just as they suffered in the years mentioned. The war of today is not between opposing armies and navies, but between two sharply antagonistic ideas—an acute nationalism on the one hand and a reaching out for an acceptance of the true concept of internationalism on the other hand.

Following the Great War, the statesmen of the world attempted to promote and make realities of two great ideals—one, the right of self-determination by races and small nations; two, the creation of a League of Nations. Both of these ideals are good, but either carried to an extreme is destructive of the other.

In order to provide for the first, self-determination, numerous small nations were brought into being in Europe. They immediately set to work to fan the flame of nationalism as essential to their continued existence and development, and the fanning of such flames was comparatively easy following four war years of nationalistic appeals to people in all lands. The inevitable result was the setting up of barriers of various kinds along all frontier lines, all with the idea of building up a nation apart from other nations.

Coupled with this development was the effort made in the opposite direction—the creation of a League of Nations to draw all nations closer together, to preach the doctrine and drive home the lesson taught by the Great War that no nation can live unto itself alone, that interdependence rather than isolation and antagonism is essential to the wellbeing of the human family.

Unfortunately, the appeal to a narrow nationalism found a reader response. The masses of the people understood such an appeal. They had been fed on it for countless centuries and as a result were imbued with prejudices and passions not easily dissipated. Selfish interested parties and individuals utilized this nationalistic appeal to their own advantage. The result—a world presently given over to the most insane forms of nationalism. World trade, the exchange of commodities between nations, is curtailed and restricted by tariff walls higher than ever before known; restrictive laws are rigidly enforced prohibiting the people of one country to enter another, with the result that the unpopulated areas of the world remain unpopulated and unproductive while teeming millions are coupled up in restricted areas with no outlet; producers in one country cannot find customers for their surplus products, while consumers in other countries lack even the essentials of a bare existence.

Faced with such a condition—a condition everywhere recognized—the nations of the world instead of getting together and mutually agreeing in the interests of all to abandon this extreme nationalism, remove their restrictions and destroy their barriers, and thus allow natural laws to freely operate, are actuated by fear that some one nation may thereby gain an advantage over some other nation. So all continue to suffer, and the situation grows worse because in the ensuing struggle every new restrictive act by one country is met by a counter restrictive act by other countries.

So long as such a condition prevails, it is idle to talk of reduction in armaments, because physical warfare is the ultimate outcome of economic warfare and the continuing clash of nationalistic aspirations. In the development of a true internationalism lies the hope of the world.

Saskatchewan Honey

1930 Production Largest In History Of Province

The production of honey in the Province of Saskatchewan, in 1930, was 685,551 pounds and its value \$108,257—the largest output in the history of the province and exceeding that of 1929 by 280,649 pounds and that of 1928 by 263,249 pounds. The honey production for the whole Dominion in 1930 was 31,169,683, so that Saskatchewan's quota was a little over two per cent. Manitoba produced 10,110,128 pounds and Alberta 1,578,948 pounds.

Employer Was Narrow-Minded

Harry Wheeler, grocery clerk, of Havant, England, won a \$500 prize in the Derby Sweepstakes, but lost the job he had held for 42 years. He bought a ticket under the pseudonym of "Jumbo" and gave the address of his employer, G. R. Standing, grocer, magistrate and lay preacher. When Standing, a strong opponent of gambling, heard of the incident, he promptly discharged Wheeler.

Gets Seven Months' Leave Of Absence

Oklahoma Convict Let Out To Harvest Neighbors' Crops

Jim Crowell has been given a seven months' "leave of absence" from the Oklahoma State Prison because he owns the only threshing machine in his part of the State.

Crowell's neighbors petitioned Acting Governor Robert Burns to grant the leave because, they said, they had to have him to harvest their crops. The prisoner was serving a twelve-year sentence for manslaughter.

Edmonton Civic Census

The result of a civic census taken recently in Edmonton shows the population of this city as 79,059. The census was taken on the same basis as a federal census, and shows an increase over the 1930 population of 1,502. Of the population, 61,336 reside on the North Side, and 17,723 on the South Side. A unique balance of the sexes is recorded, in that there are 39,540 males, and 39,519 females.

Suffered Severe, Painful Cramps In Her Stomach

Those terrible cramps in the stomach that double you up in pain and make you break out in a cold perspiration, may be stopped by a few doses of Dr. Fowler's Extract of Wild Strawberry.

Mrs. Lloyd Jones, 204 Argyle St., Halifax, N.S., writes:—"I have suffered greatly from severe and painful cramps in my stomach. I tried several remedies without result. One day a friend advised me to take Dr. Fowler's Extract of Wild Strawberry, so I bought a bottle and got instant relief."

Willington Arts Competition

Results Of Awards For The Third and Final Year Announced

Results in the Willington arts competition for the third and final year were announced recently at Ottawa. The Willington arts competition was instituted by the Earl of Willington, when governor-general of Canada, with a view to the encouragement of the arts and letters in the Dominion. The music section called for a composition for violin and piano and this contest was won by George Bowles, of Winnipeg, with his "Impromptu."

The prize of \$100 for an organ composition was won by F. Llewellyn Harrison, New Glasgow, N.S., with his "Winter's Poem." The final prize in music, also of \$100, was won by Gladstone Evans, of Toronto, with his "Wanderlied." This prize was offered for a vocal solo setting, with piano-forte accompaniment of a poem chosen by the committee.

The prize of \$200 in the sculpture field was won by Dinah Lauterman, Montreal, with "Head of an Indian Chief."

In the painting section, won by Pegi Nicol, of Ottawa, with her painting the "Log Cabin," the following submissions received honorable mention: "Lytton Church, B.C.," by J. W. MacDonald, Vancouver; "Ten," by F. H. Varley, A.R.C.A., Vancouver; "F. H. Varley, A.R.C.A., Vancouver," by Vera O. Weatherbie, Vancouver.

Using Movies To

Trace Brain's Action

Medical Convention Sees New Method For Scientific Study

A promising method of using movies to unravel mysteries of the brain's control over health was shown at the American Medical Association's annual convention in Philadelphia.

The pictures were taken during the last five years at the St. Elizabeth hospital at Washington, the government institution for the insane. But their application is not confined to insanity.

They record the peculiar facial expression and movements of patients who later died and whose brains now reveal the reasons for the troubles. The brains are mounted under glass in such a manner that the observer sees vividly the damage that expressed itself in action during life.

By study of the pictures and the brains, physicians can recognize the earmarks of similar troubles in the living, and in some cases take action before it is too late. In other instances medicine now knows no remedy and the movies are simply a new method for scientific study.

Treasures Unearthed

By Veteran Explorer

Silk In British Museum Is Older Than Christianity

In the British Museum is some silk, the colors of which are bright and the patterns clear. Yet it is older than Christianity, having been found in a cache on the ancient high road between China and Eastern Asia, where it had been placed 2,000 years earlier. The finder was Sir Aurel Stein, the veteran explorer, who, it is announced, has been forced to abandon his latest expedition through Chinese obstruction. Most of his life Sir Aurel has been unearthing traces of bygone civilizations. But none probably surprised him more than the discovery he made not long ago in the heart of the desert east of Syria. There, far from the haunts of man, he found the tracks of a motor car! Following them up, he presently found the car, too. It was carrying a Bedouin sheik and three shepherds, who were using it expertly to search for lost sheep.

Vancouver Exhibition

Splendid progress is being made in the erection of new buildings by the Vancouver Exhibition Association which will run to an expenditure of about \$300,000 and will likely be completed during August.

A Prime Dressing For Wounds.

In some factories and workshops carbolic acid is kept for use in cauterizing wounds and cuts sustained by the workmen. Far better to keep on hand a bottle of Dr. Thomas' Electric Oil. It is just as quick in action and does not scar the skin or burn the flesh.

Chinese Returns Home

A large party of Chinese, accompanied by their wives and families, arrived in Vancouver recently over the Canadian National Railway. Members of this party came from the British West Indies and South America and were en route to China.

Manitoba Beryllium Deposits

The Industrial Development Board of Manitoba, announces that it is at present in touch with about thirty United States firms in regard to the development of the beryllium deposits in Northern Manitoba.

U.S. Land, Sea and Air Forces

Figures Showing Strength Submitted To League By United States

Acting to encourage world-wide preparations for the League of Nations general disarmament conference, the United States government has submitted to the league after setting forth in detail the total land, sea and air forces of the United States.

The league has requested similar information from the other powers which will participate.

The United States total land effective as given in the data, are 189,957, including 13,080 officers, as compared with a legal strength for the army under the national defense act of 1923 of 17,728 officers, 640 warrant officers and 280,000 enlisted men.

The total naval force strength was placed at 109,886, including 10,420 officers of the navy, 1,030 officers and 17,500 men of the marine corps. The marines were listed as of "average strength."

Recipes For This Week

(By Betty Barclay)

LEMON MERINGUE PIE

(Makes 1 pie)

1 cup sugar.
3 tablespoons flour.
3 tablespoons cornstarch.
1 teaspoon salt.
1½ cups boiling water.
Sift dry ingredients, add water, and cook in double boiler until thick (about 15 minutes). Add:
½ cup lemon juice.
Grated rind 1 lemon.
2 egg yolks, beaten slightly.
Cook 2 minutes longer. Cool and turn into a baked pie shell. Cover with meringue made of:
2 egg whites.
¼ cup sugar.
¼ teaspoon baking powder.
Beat egg whites until frothy, add sugar and baking powder and continue beating until stiff. Put in moderate oven (325 degrees Fahrenheit) for 15 minutes to brown.

LISBON EGGS

This combination of soup and eggs makes a dish hearty enough for the main course at luncheon or supper, or may be used as a beginning for an otherwise rather light dinner.

2 cups soup stock.
1 onion.
1 tablespoon vinegar.
1 tablespoon sugar.
2 tablespoons bacon drippings.
Eggs.
Toast.
Fry the sliced onion in the bacon fat. Add the soup stock, vinegar, and sugar. Cook all together until the onion is soft. Have ready one slice of toast for each person to be served. Poach an egg in the boiling soup for each person. Arrange the toast in soup plates. Place a poached egg on slice. Fill the plates with the soup.

Persian Balm tones and stimulates the skin. Fragrant as a flower. Cool as morning dew. Safeguards and beautifies the most delicately-textured skin. Creates a complexion of exquisite charm. Adds a subtle finish to the faintest woman. Invaluable for softening the hands and making them flawlessly white. Cool and refreshing. Daintily fragrant. Delightful to use. Chosen unhesitatingly by all women who care for feminine distinction.

Decline In Construction

Building Figures In Canada Show Considerable Falling Off

A falling off in building construction in Canada was recorded for May. Building permits issued in 61 cities reporting to the Dominion Bureau of Statistics amounted to \$11,868,000 as against \$13,786,000 in April, and \$20,321,000 in May of last year. The total of the first five months of 1931 was \$49,001,000, the lowest figure in the past decade.

Of the larger cities, Montreal reported a higher total of building permits issued both in April, 1931, and in May, 1930, while in Toronto, Winnipeg and Vancouver there was a decrease in both comparisons. St. Boniface and North Vancouver recorded increases in the value of the building authorized as compared with both the preceding month of the same months of last year.

Trout can be caught with worms on a bent pin but custom requires perfect co-ordination of mind and body and the use of \$300 worth of superfluous equipment.

W. N. U. 1896

Will Transfer Settlers Free

Tri-Party Agreement To Aid Families In Alberta

Settlers desiring to move from parts of Alberta where conditions are unfavorable, to other sections offering better prospects, will be moved free, under a tri-party agreement between the provincial and Federal Governments and the railways.

Hon. George Hoadley, Minister of Agriculture, announced this policy on his return from Ottawa, where he took up with the Federal authorities a number of matters bearing on administrative co-operation between the two governments.

The Alberta Department of Agriculture had made application for a renewal of the free movement arrangement, and on Mr. Hoadley's following this up with a personal visit, it was agreed to by Hon. Robert Weir, on behalf of the Dominion Government. The railway companies also have indicated that they are prepared to take part in the scheme on the same conditions as in previous years.

Settlers whose applications have been approved by the department will be moved to new locations, with their stock and equipment at no cost to themselves, the two governments and the railway company concerned each bearing one-third of the transportation charges. A number of such requests are now on file, and after they have been investigated and approved, steps will at once be taken to move the families to their new homes.

There has been no movement of this character since June, of 1927, but up to that time 1,700 families had been moved during the years the scheme was in operation.

Television Is Progressing

Manufacturers Are Paving Way For Home Vision Set

The radio industry is preparing itself for the introduction of television in the home. By fall or winter the new art should be in its preliminary stages.

That was the opinion expressed at the opening of the annual convention and trade show of the Radio Manufacturers' Association at Chicago by Bond P. Geddes, executive vice-president and show manager.

"When the broadcasters now experimenting with radio sight establish entertainment value of television, the industry itself will have anticipated that move," Mr. Geddes said.

"Television undoubtedly is progressing. Already several manufacturers are paving the way for the home vision set and others are becoming more and more interested. 'This fall and winter should see television in the 'crystal stages' through which the sound receiver passed ten years ago."

An Interesting Ceremony

Bronze Tablet Unveiled In France Commemorated Norman Conquest Of England

A magnificent bronze tablet, with bas-reliefs depicting some of the principal scenes connected with the Norman conquest of England in 1066, has been unveiled at Falaise, Normandy, France, on the wall of the old chateau of Falaise, home of William the Conqueror.

The tablet bore 315 names of participants in the famous battle of Hastings, chosen after careful culling of old records. Of these about 100 were known to have descendants in Canada and the United States.

An important British delegation, headed by the mayor of Hastings and a number of noblemen of Norman ancestry, attended.

Digging For Treasures Of Roman England

Five Different Sites Being Explored By Antiquarians

On five different sites antiquarians are this summer digging for treasures of Roman England. The Royal Air Service is following up its flights of a few months ago by taking aerial pictures of the Roman wall between Tyne and the Solway. Along the ruins of the old Roman town of Verulamium, which adjoins the town of St. Alban's, secrets of Roman trade are coming to light. Near Colchester the palace of Shakespeare's Cymbeline is to be excavated. An aerial photograph taken near Norwich has disclosed some principal features of a Roman town plan.

An Algoma Production

Huge maple leaf, 12 by 18 inches in size, has been sent to Hon. G. Howard Ferguson, Canadian High Commissioner at London, England. It was plucked in the Algoma bush and was hailed there as "another one of the splendid things that Algoma produces."

All the railroads need to meet bus competition is a freight car that will back up to your door.

Carry Robot Pilot

When Fliers Try For Non-Stop Record To Cape Town

Squadron Leader O. R. Gayford and Flight Lieutenant D. L. G. Bett have been chosen to attempt a world's long-distance record in a new giant monoplane on a non-stop flight to Cape Town or Ceylon.

A Fairey-Napier monoplane being built for the attempt will be ready about the end of July and will be tried out in August, although the attack on the record of 5,625 miles now held by the French airmen, Dieudonne Coste and Maurice Bellonte, will not be made until late autumn.

The destination will be determined by weather conditions, although the Ceylon route is regarded as more favorable for the attempt.

The machine will be almost identical with the Fairey-Napier long-range monoplane used for the last attempt, in 1929. Only a thousand gallons of fuel will be carried. There will also be a robot pilot in order that the two pilots may be relieved of considerable routine during the flight. The automatic airman will be able to take safe and complete control once the course is set.

Squadron Leader Gayford was a World War pilot and later served in Egypt and India. He also participated in the annual R. A. F. flight between Khartum and Cape Town in 1928. Flight Lieutenant Bett participated in the annual R. A. F. flight through Africa in 1927.

Platinum Wire

Can Be Drawn So Thin That 25,000 Miles Of This Wire Would Weigh Only 35 ounces

A platinum wire long enough to girdle the globe at the equator can be drawn from the precious metal in 280 wedding rings, according to Cecil S. Sivil, of the research department of Baker and Co., refiners of precious metals. The process whereby this can be accomplished has been described in a paper which he presented before the American Institute of Mining and Metallurgical Engineers.

The extraordinary ductility of properly melted platinum is demonstrated, Mr. Sivil said, by the fact that it can be drawn into wire as fine as 500 millionths of an inch in diameter. Twenty-five thousand miles of this wire would weigh only 35 ounces.

Relieves Asthma At Little Expense. Thousands of dollars have been vainly spent upon remedies for asthma and seldom, if ever, with any relief. Dr. J. D. Kellogg's Asthma Remedy, despite its assurance of benefit, costs so little that it is within reach of all. It is the national remedy for asthma, far removed from the class of doubtful and experimental preparations. Your dealer can supply you.

Compulsory Idle Insurance

Stating that the United States might well take a leaf out of Russia's book in planning for the future, G. Hall Roosevelt, nephew of the late President Theodore Roosevelt and city comptroller of Detroit, advocated a system of compulsory unemployment insurance in an address before the International Association of Comptrollers and Accounting Officers here recently.

Acid Stomach

Completely Relieved

Famous Vegetables

Mr. Frank C. of Blackburn, have suffered long from acid stomach and constipation, but since being advised to try your wonderful Carter's Little Liver Pills I can eat anything. Dr. Carter's Little Liver Pills are no ordinary laxative. They are ALL VEGETABLE and have a definite, valuable tonic action upon the liver. They end Constipation, Indigestion, Bilelessness, Headaches, Poor Complexion. All druggists. 25c & 75c red pkgs.

Co-Operation Best Way Of Doing Business

Views Of British Trade Delegation Corroborated By London Times

"It is clear the best way of doing business with Canada is by co-operating with existing Canadian interests and by pushing especially those lines of goods which are complementary to rather than competitive to Canadian products," declared the London Times in an editorial on Anglo-Canadian trade.

"The Canadian manufacturer can only produce economically goods for which there is sufficient demand in the Dominion, but he is endeavouring to prepare for an increasing population and greater prosperity by extending the range of his production. The British manufacturer can assist him in this and may expect in return his assistance in marketing in Canada British goods which are complementary to products of Canadian industry."

The editorial was along the same lines as the main recommendations of the trade mission which recently visited Canada on behalf of the Federation of British Industries, and urged that the only proper policy for the British manufacturer was co-operation and not competition with existing Canadian industries; to mutual advantage.

Some Regulations Needed

Hon. R. J. Manion Refers To Motor Bus Competition With Railways

"I believe in this country, as well as in others, some form of regulations for this competition will have to come," said Hon. R. J. Manion, Minister of Railways and Canals, referring to motor bus competition with railroads, in the course of the budget debate in the House of Commons.

Motor bus competition was injuring Canadian railways in company with systems in other countries, Mr. Manion declared, and it was not fair for the railways, with their expensive heavy equipment, operated on their own right-of-ways, to be subjected to the unregulated competition of motor busses and motor trucks running on public highways constructed with public funds.

Keep Douglas' Egyptian Liniment handy.

A sure, speedy remedy for burns, sprains, felons, blood poisoning, soft corns, warts, scald feet. Invaluable for inflammation and muscular rheumatism.

Manitoba Peat Beds

A request is being made to the Federal Department of Mines by persons interested in the peat industry for a survey of the peat beds in the northeastern part of Manitoba.

Don't Let Foods Stale

Foods that ordinarily stale quickly will stay fresh and tempting a surprisingly long time if you cover them with Para-Sani Heavy Waxed Paper.

Your grocer, druggist or stationer has Para-Sani in the handy, sanitary knife-edged carton. For those who prefer a lighter paper put up in sheet form ask for Appleford's "Centre Pull" Packs.

The Centenary Of Lower Fort Garry

Historic Setting Recalls Memories Of The Early Days Of The West

Anne Grey writes in the Free Press on the centenary of Lower Fort Garry, the old Stone Fort, now rented from the Hudson's Bay Company by the Motor Country Club. The ballroom which now rings with the laughter of the young people of the 20th century was the scene of many happy hours when the traders had their first days with their friends. Sweethearts were left in the fort while the men journeyed north and west and carried on the business of trading, gathering furs and governing.

With the celebration of this 100th birthday, the "Fort" has again taken on its historic appearance, beautiful old wood has been uncovered, beams which are not only the supports of the building but are marks of beauty in the rooms. The walls have been restored to their former finish, and creamy whitewash, and even stone which has taken on the color of the golden sunset forms a lovely background for many pieces of furniture, which are either originals or replicas of that used by the first occupants of the fort.

In the dining room a carron stove has been rejuvenated, after spending many years in the cellar, and the dining room chairs are replicas of those originally used, and were copied from one now at Little Britain. In the parlors the lights are copies of the old tin and glass lanterns, but now electricity takes the place of the tallow candles of yesteryear. The chairs are of the style used by Governor Simpson, and the one from which these were copied was brought by dog sleigh from Norway House.

A lovely old spinning-wheel in one corner reminds one of the duties of the women in the weaving and making of garments. A brass warming pan hangs by the fireplace, just as it must have hung a century ago; even the copper kettle which was singing its song on the carron stove took one in imagination back to the days of the pioneers.

In the ballroom the beams of oak, hewn and squared and showing the marks of the axe, form the supports of the ceiling, a fireplace holding a fire of wooden blocks and cheery drapes of old-fashioned red repp, which hang from wooden poles make this a delightful place to enjoy the dance.

The cellars too, have been searched for beauties and two rooms have been brought back. The governor's room, with its flag-stone floor, stone walls old oak corner cupboard, its stone fireplace which for so many years has been closed, is once more doing duty, and one can imagine that the baking was done here in the early days of the fort. The smoking room with its old oak corner cupboard its stone fireplace, beamed ceiling, and its door which was the original door used on the prison of the fort. Wrought iron candlesticks with tallow candles centre the tables, and old oak benches carry the mark of other days.

Manitoba Gold

Famous for wheat and honey, Manitoba is also becoming a gold producer of considerable importance, the present output being estimated at the rate of \$2,500,000 annually. This is a substantial increase over production in previous years. Manitoba's gold output by months for the present year is as follows: January, 10,638; February, 9,238; March, 7,785; April, 8,267 ounces.

A free man is one sent to Siberia for criticizing a Soviet instead of a Czar.

Eskimo Book Of Knowledge

Story Of The Empire To Be Told In Eskimo Language

In metaphors of the hunt and the sea, Eskimos of Labrador are to be told the story of the Empire. The Hudson's Bay Company proposes to supply the "Eskimo Book of Knowledge" for a few ermine skins.

Here is Great Britain as visualized for the Eskimos:

"With your Komatik (sledge) and dogs you could travel from one end of this island to the other in 10 sleeps and across the island in five sleeps; but albeit it is a small island yet in one encampment of moderate size there live more white men than are numbered among all the Eskimo tribes."

"On certain occasions of great feasting, King George and Queen Mary ride through the paths of London with their children and with the chief ministers of the land, accompanied by a great band of servants. Then both King and Queen wear robes of surpassing richness. That is great excitement among the people—more thrilling even than the arrival of the company's ship at your post in the summer-time."

A photograph of the Prince of Wales taking part in a point-to-point race bears the caption: "Edward, the oldest son of King George, racing across country on a large four-legged animal called 'horse,' which eats grass like a deer."

"God Save the King" is given in Eskimo. The first verse runs:

Gudib Salmariuk
Ataneriavut
Nalenarnatok
Piloridarlune
Nertornadlariune
Atanitielle
Uvaptignut.

Successful Seal Hunt

Thirteen Hundred and Fifty-Seven Seals Taken In Three Weeks At Pacific Coast

Thirteen hundred and fifty-seven seals—babies, mothers and dads—were slaughtered this year by the sharpshooters and machine-gunners of the fisheries patrol steamer "Givenchy," Captain W. Reeford. The ship arrived recently after a three-weeks' hunt at the Virgin and Pearl rookeries in Queen Charlotte Sound. This is a bigger bag than was made last year.

The officers report no appreciable reduction in the mighty bulls of the herds, but there is an apparent decrease of cows and calves. The bulls, being more inclined to look out for "Number One," always take to the water at the first indication of danger, and are very hard to kill. The calves, trusting and affectionate, stick around and wriggle in friendly manner into the very muzzles of the guns that are belching death at them. The sharpshooters hate this phase of the job.

The bulls are big, weighing often more than a ton. The cows weigh from 100 to 1,500 pounds, and their mother love brings death to them, and also brings a spice of danger to the hunters.

The cows swim away on the first alarm, but come back to the rocks with blood in their eyes, to see that their youngsters are safe. Once a huge cow charged a bunch of sharpshooters and ran them off a rock before their bullets cut her down. Another time a great and angry mother flopped, roaring, across a ledge and charged down on Chief Officer V. W. Earnshaw, who did not notice her until she was upon him. He made a hasty escape, but returned in time to perform his duty with regard to that particular mother's future.

Manitoba Mineral Development

P. E. Billingham, a mining engineer in St. Boniface, has announced excellent progress in the experiments with his recent discovery of a method for extracting potash and lithia from the rock formation in the Winnipeg River district. If the process continues a success it may mean important developments for the future.

Powerful X-Ray

Scientists meeting here were astounded recently by reading of a report from Berlin describing the development of an X-ray tube capable of producing gamma rays equal to 100,000 grams of radium—more than all the radium in use in the world.

Tommy—Mothers is awful.
His Father—Why, Tommy?
Tommy—If my ears is dirty, mother washes 'em, and if my ears is clean she whips me for goin' swimmin'."

That Pennsylvania educator who wants a world tour to be a part of the public school curriculum evidently thinks the best time for a stone to roll is when it is a pebble.

DEFENDS BEAUHARNOIS

W. N. Tilley, K.C., who will represent the Beauharnois Company at the probe which is being carried on by a committee of the House of Commons to enquire into the Beauharnois project.

Wonders Of Electricity

Marvellous Things Seen By Delegates To Banff Convention

Myriads of electrons played and worked at the Canadian Electrical Association Convention at Banff, Alberta, when I. W. Clubb, director of the Westinghouse research laboratories and Dr. Philip Thomas of East Pittsburgh, Pa., combined to control the smallest known things in the world and make them do their bidding.

Lamps were lighted without wire connections, an apple was shot off the head of a robot, and an electric vacuum cleaner got busy when told to do so, and controlled by a ray of light, cleaned part of the stage floor.

Letters on fast revolving discs were seemingly held stationary by the stroboglow, the ultra-stroboscope; two pieces of a new alloy became magnetized when held pointing downward and due north, and became demagnetized when the direction was changed.

"Rastus the Robot" spoke his lines and stood up or sat down when commanded to do so, and most astonishing of all, the many convention-room lights went off, or came on again when Mr. Clubb blew on a proto cell or held a lighted match near it.

Delegates to the convention were given explanations about electrons, their speed of travel around the positive nucleus of the atom and the manner in which scientists are using them.

Statue Unveiled To Founder Of Halifax

Coremony Held On 182nd Anniversary Of His Landing

Thunder of a royal salute from Citadel Hill on July 22 in celebration of the 20th anniversary of His Majesty's coronation was made to coincide with the unveiling of a statue at Halifax, N.S., to Hon. Edward Cornwallis, founder of Halifax, on the 182nd anniversary of his landing on the shores of Chebucto Bay. The statue was unveiled by the Chief Justice, Hon. J. A. Chisholm, acting as administrator of the province, in the absence of the lieutenant-governor.

Many mothers have reason to bless Mother Graves' Worm Exterminator, because it has relieved the little ones of suffering and made them healthy.

Battle Awards For Militia

The fifth list of battle honors awarded to units of the Canadian Expeditionary Force and to the regiments of both the permanent and non-permanent active militia contains those of five units. These are: Lord Strathcona's Horse (Royal Canadians), the Alberta Mounted Rifles, the South Alberta Horse, the Algonquin Regiment and the 1st Canadian Pioneer Battalion.

Cranky Customer: "Here waiter! Take this roast beef back to the chef. It isn't fit for a jackass to eat."

Willing Waiter: "All right, Sir! I'll see that you get another helping that is."

"If I lend you the half crown will you pay it back by Friday?"
"Yes, even if I have to work to earn it."—Sondagenhuse-Strix, Stockholm.

Educating the Youth

Education Made For Children, Not Children For Education

The task of discussing in extenso the merits and demerits of the criticisms of the American school and college system, made a few days ago by President A. Lawrence Lowell, of Harvard University, falls naturally to the lot of the schoolmasters of the country. Some of them have already agreed or disagreed vigorously with Dr. Lowell, and more are likely to speak their minds before the world grows much older. We venture, as a rank outsider, to offer a little comment on only one point.

Dr. Lowell says, "A normal child, who like those in this school (Phillips Exeter Academy), must later in life deal largely with books, reports, letters and other written material, should read fluently at five and certainly at six."

In making such a statement the president of Harvard puts himself out of harmony with a considerable body of educators and physicians, who are inclined to insist that schooling as a regular thing ought not to begin before a child is six years of age, and preferably until he (or she) is seven years old.

The normal youngster of five or six should be running loose out of doors as much as is feasible, and should be building up his physical strength and developing his imagination, and getting acquainted with the natural world, instead of fussing with letters and figures. After all, an average child with half a dozen years or less on his little shoulders is not much more than a baby. If he is forced to bury his tiny face in a book so that he may be able to "read fluently" when he finally climbs down out of the high chair and hangs up his bib for the last time, he is being made the victim of something little better than an infant labor system, which is bound to take dangerous toll of him physically and nervously, and perhaps malform his eyes.

Principal Benjamin F. Comfort, of the Cass Technical school, unquestionably speaks in harmony with the experience of many parents when he reports that he sent none of his children to school until they were seven years of age, and that "when they had reached fifteen they were just as far along in their school work as others who had started at five or six years."

The better physical and nervous start Mr. Comfort's children enjoyed more than compensated for their late start in school; and other things being equal will give them an advantage through the whole of their lives.

After all, education was made for children, not children for education. Education is good, but it should not be allowed to become a fetish. —Detroit Free Press.

Relics Of Old London

Only Five Hansom Cabs Now Operating In City

At one time the streets of London, England, were filled with hansom cabs. One had only to stand near the curb for a minute or two and one of these vehicles would roll up to you. They were handy and economical. Now there are but five in the entire city. These are hired out of curiosity and the drivers make out quite well despite the opposition of the more rapid and modern taxicab. There are also some old-timers in the city who cling to the use of the two-wheelers and the driver of one of them says that he has driven the same gentleman every night for 25 years.

Ancient Cosmetics

Face Paint Used 1,500 Years Ago Much The Same As Used Today

The chemical-pharmaceutical institute of the Frankfort University has analyzed brown and white face paints found in the vanity box of a Roman woman who lived some 1,500 years ago, and finds that their composition is almost exactly the same as that of similar cosmetics today. The only difference is that the ancient paints contain particles of metal which have since been found to be harmful to the skin. The box was found in a grave of the old Roman Settlement Nida, near Frankfort.

First Locomotive In West

The first railway locomotive crossed the Red River at Winnipeg just fifty years ago. The original locomotive, long since superannuated, is now a centre of interest in one of Winnipeg's parks.

China Will Aid Its Mining Industry

China will aid its mining industry.

PAINS

No matter how severe, you can always have immediate relief!

Aspirin always stops pain quickly. It does it without any ill effects. Harmless to the heart; harmless to anybody. But it always brings relief. Why suffer?

ASPIRIN

TRADE MARK REG. Made in Canada

Advertising Is Essential

Should Be Continued and Carried On In These Difficult Times

"Advertising is the most essential thing that should be continued and carried on in these difficult times of suspended prosperity — it must go on," declared T. R. Enderby, general manager of the Canada Steamship Lines, addressing the Montreal Advertising Club. The speaker spoke of the widespread effects on thousands of ship and elevator crews on the Great Lakes when there was but a small grain movement.

"Last year I spoke to you about the grain business and the trouble it was giving us. We are not having any trouble with the grain business this year — there isn't any grain business," Mr. Enderby said.

Premier Bennett's plan to give a five cent bonus on every bushel of grain exported from Canada the speaker believed was an excellent scheme although he did not think the way in which it would be applied was quite clear.

When ships stopped moving it meant a lot of money was lost. All along the route ship crews and elevators were left unemployed. In the Canadian Great Lakes fleet there were 7,000 men of ship crews with nothing to do. Their families were suffering.

THE RHYMING OPTIMIST

By Aline Michaelis

PRESSED SEA-WEED

Between the yellowed pages of a book
A bit of sea-weed met my hand to-day,
And it had gained in that closed place a look
All alien to its home of wave and spray.

What once was rosy-red now gray
And dim,
What once was lithe with life now stiff and stark.
What once might drift from ocean rim to rim
Shut closely here in an unending dark!

Old time and change, like pages, sometimes close
Upon the inflorescence of a heart,
Turning drab-hued what had been glowing rose
While slowly vital essences depart.

Yet even in pressed sea-weed one divines
The lift of foam and ocean's flowing lines!

Alberta Sheep Breeders

Sheep breeders in the Strathmore district are reporting large increases in their flocks this year and several large owners have obtained increases of over 125 per cent. owing to unusually fine weather in March and April.

A race between men carrying bass drums was held recently at Chelsea, England.

Aching CORNS STOP HURTING INSTANT RELIEF!

Just a drop or two of Putnam's Corn Extractor, and the pain goes away. Relief is almost instantaneous. Removing corns with "Putnam's" is so easy, so sure, so painless—thousands use this wonderful remedy, and say it is the best. Don't suffer any longer, use Putnam's Corn Extractor, the one sure relief for sore corns. Sold at every drug store, 35c.

PUTNAM'S

European Travel Much Cheaper

Hotel and Railway Rates Are Lowered On the Continent

European travel is going to be much cheaper this summer according to an announcement from the local offices of the Cunard Steamship Co., Limited. Hotel rates will be lower also. With the world proceeding at a reduced pace and money growing in value daily, the men at the heads of European railroads and hotels realize that the only way of winning the Canadian dollar is by holding out more than a dollar's worth in order to attract it. Consequently, there have been reduced rates for tours in Great Britain and deep cuts in railway and hotel rates throughout the continent. It will be much cheaper to travel this season, the reductions ranging from fifteen to forty per cent. In France it will be possible to ride around daily for two weeks for the sum of \$50.45.

The Norwegian Railways have announced a reduction in fares varying from fifteen to thirty per cent. This condition will last all summer.

The French railways are issuing a coupon for \$1.00 which enables the holder to purchase a railroad pass good for two weeks at \$66.70 for first class and \$50.45 for second class accommodations. This pass will permit the holder to use the French railways at any time within the two weeks specified there being no restriction as to its use. For families there are greater reductions, the cuts reaching from twenty to forty per cent.

On group business Germany is granting twenty-five per cent. reduction for fifteen to fifty passengers and an additional reduction for larger groups.

Many of the hotels will maintain their low winter schedules during the summer.

Was Hard Pressed

Sad Plaat Of a Debtor Who Did Not Know Which Way To Turn

A man in Oklahoma is reported to have written to his banker as follows, when pressed for payment of a note:

"It is impossible for me to send you a cheque in response to your request. My present financial condition is due to the effect of federal laws, state laws, county laws, corporation laws, by-laws, brother-in-laws, mother-in-laws, and outlaws that have been foisted upon an unsuspecting public. Through the various laws I have been held down, held up, walked on, sat on, flattened and squeezed until I do not know where I am, what I am, or why I am."

"These laws compel me to pay a merchant's tax, capital stock tax, income tax, real estate tax, property tax, auto tax, gas tax, water tax, light tax, cigar tax, street tax, school tax, syntax and carpet tax."

"The government has so governed my business that I do not know who owns it. I am suspected, expected, inspected, disrespected, examined, re-examined, until all I know is that I'm supplicated for money for every known need, desire or hope of the human race, and because I refuse to fall and go out and beg, borrow and steal money to give away, I am cursed and discussed, boycotted, talked to, talked about, lied to, lied about, held up, held down and robbed until I am nearly ruined; so that the only reason I am clinging to life is to see what the h— is coming next."

Japan Has Strong Army

Figures On Nation's Military Strength Submitted To League

The Japanese war office has published figures on the nation's military strength which will be submitted to the League of Nations.

The army numbered 231,600 men, including officers, in addition to 2,210 men in the gendarmerie and about 20,000 police in Korea, Formosa and Manchuria.

The aviation branch totalled 623 aeroplanes and eight regiments and organization of two new air regiments was contemplated.

Expect Record Exports

With the sailing of 15 ships, crammed with butter, cheese, wool and other New Zealand products, from Wellington, it was predicted that the present export season would break the record for the country. Three vessels carried a total of 36,000 bales of wool, 800 bales of sheep's skins, 56,000 boxes of butter and 28,000 crates of cheese, as well as other cargo. One ship carried the largest wool cargo in a single vessel for many years.

Milk-Treating Plant For Vancouver

According to a report of the Industrial Secretary of the Vancouver Board of Trade, there will be established at Vancouver within the next three months a new milk-treating plant, at a cost of a little under \$300,000, which will be built by the Co-Operative Pure Bred Jersey Products Association.

How To Lose Fat and Get That Youthful Feeling

Over in Great Britain when a man is feeling "as fit as a fiddle" and looking the "picture of health" they say: "HE'S GOT THAT KRUSCHEN FEELING."

That means he takes his little dose of Kruschen Salts every morning. It's the same in the U.S.A.—in Germany—in Holland—in Australia—in South Africa, for Kruschen Salts are now sold the world over. Kruschen Salts is not one salt only—it is the combination of six salts necessary to healthy life.

Take half a teaspoon in a glass of hot water before breakfast every morning, modify your diet and exercise regularly.

But don't miss a morning, for Kruschen not only puts and keeps the stomach, liver, kidneys and bowels in a splendid healthy condition, but purifies your blood-stream, and sends new life and activity to every part of your body.

Little Helps For This Week

"I will guide thee with Mine eye." —Psalm xxxii. 8.

Of his high attributes beyond the most, I thank my God for that Omniscent eye.

Beneath whose blaze no secret thing can lie, In His infinitude of being, lost. I bless my God I am not wrecked and tossed

Upon a sea of doubt, with power to fly And hide, somewhere in immensity, One single sin out of His reckoning crossed.

For even there—self-conscious of its thrill— Might spring the terror,—"If He knew the whole, And tracked the skulking guilt out of its goal,

He could not pardon!" But, or great, or small, He knows the inmost foldings of my soul,

And knowing utterly, forgives me all! —Margaret J. Preston.

His eye is upon our ways, upon our souls; and we may look into that eye. We know, or may know, on what it rests with pity, on what it rests with condemnation; and we can, if we will, always do the things that please Him; and can make His good pleasure our constant motive, our rule of duty, our reason of doing and not doing. We can shape ourselves under the eye of God, as He would have us. —Andrew P. Peabody.

Too Many Complexes

Broad-Minded International Ideal Needed To Save Civilization

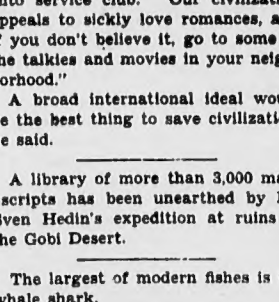

There are too many complexes in the civilization of today, according to Dr. George M. Weir, of the University of British Columbia, Vancouver.

"We are developing too much second-hand thinking, crowd thinking," he declared, addressing a Toronto service club. "Our civilization appeals to sickly love romances, and if you don't believe it go to some of the talkies and movies in your neighborhood."

A broad international ideal would be the best thing to save civilization, he said.

A library of more than 3,000 manuscripts has been unearthed by Dr. Sven Hedin's expedition at ruins in the Gobi Desert.

The largest of modern fishes is the whale shark.

"Brought Back My Strength"

"Lydia E. Pinkham's Vegetable Compound helped me to regain my strength. I was all run-down and very nervous and weak. Now I am able to work without that dragging, tired feeling. I first took the Vegetable Compound through the advice of a friend. I cannot praise too highly and I hope my testimony will induce others to take it."

Mrs. William Ouellette, 76 Elm St., Berlin, New Hampshire.

"BOUGHT AND PAID FOR"

"Bought and Paid For" has good plot, is full of incident, and has dialogue of rare power. The characters are genuinely human, and its touches of light comedy are altogether infectious. The Canadian Players—an all-star cast—will present this play on the opening night

Gleichen Chautauqua July 24-30

Town & District

At Meadowbrook last Friday evening Mossleigh played baseball, Meadowbrook winning. The dance put on in the hall after the game was attended by a large crowd and all report thoroughly enjoying themselves.

Quite a few people from the town and district are taking in the fair and stampede at Calgary this week.

Dominion day was a quiet day in town for those who stayed home. Quite a few had their flags out which helped to give a holiday appearance to the town.

A large number of Gleichenites attended Bassano and Strathmore doings, July 1st, Gleichen was to have played baseball at Standard but the sports there were cancelled on account of rain the day before.

E. Griesbach has painted his house and fence. He has now one of the most attractive homes in town.

Mrs. C. Fleury who was quite ill last week is now much improved in health.

Mrs. Duncan McBean has one of the most beautiful flower gardens in the district, her garden being one mass of flowers.

V. Hackworth, the local jeweler spent last week visiting his home at Maple Creek, Sask. He returned Sunday.

Miss A. Kent, teacher of the primary grades in Gleichen, left Thursday to spend her holidays at Pine Lake.

J. Gorrill, principal of the Gleichen school left last week for Edmonton where he will check over papers of school examinations.

A large number of tourists have been going through town during the last few days headed both east and west.

Miss Van Volkenburg, one of the Gleichen public school teachers is spending her holidays in Calgary.

Another dust storm sprang up Saturday evening and developed into rain which fell most of the night Sunday and Monday were raw windy days with showers falling here and there at times.

A brand new sidewalk has been laid from the corner of Sixth Ave. to the United Church manse.

This morning Harry Carreck and Scotty Phillips started work painting the Gleichen Community Hall. When this is finished it will be a decided improvement to main street.

Russell McQueen returned last week from his trip to Ontario. He says he enjoyed the trip but the heat down there was something to talk about.

Mrs. M. McMann left last week for Lethbridge where she will spend a short time visiting her mother Mrs. W. W. Brown.

Glen House has been away all week. He is practising up some new stunts for the 15th. Watch his smoke boys.

Mr. James Cameron, manager of the Branch of the Canadian Bank of Commerce in London, Ontario, arrived in Gleichen for a short stay with the local manager L. Cuthbert. Mr. Cameron was located in Gleichen at manager of the same institution during the years of 1910 to 1919 and during

these years made many friends among the old-timers and pioneers of the district. Mr. and Mrs. L. Cuthbert entertained Mr. and Mrs. Cameron and family while in Gleichen and kindly arranged to have most of the old acquaintances meet the friends at their home. The following were present Mr. and Mrs. E. D. Hardwick, Mr. and Mrs. T. H. Beach, G. H. Gooderham, A. R. Yates, Messrs. W. B. George and Alfred Campbell, Mr. and Mrs. James Young, Mr. and Mrs. W. H. James, Messrs. J. E. and H. E. James, Dr. McIntyre, Mrs. H. Lockyear, Miss Jones, Mrs. Ostrander, A. F. MacCallum, W. P. Pineau. Mr. and Mrs. Cameron and family are on their way to Vernon B. C. to visit with their parents.

Miss L. Morton, is spending her holidays at her home in Calgary.

Many tourists were on the main road Sunday going hither and yon.

Fire destroyed the farm home of Thos. Plante jr., east of Namaka Monday morning about 3 a.m. Mr. and Mrs. Plante lost all their furniture and clothes, escaping only in their night clothes. The building belonged to the Shouldice estate and was built many years ago.

It does one good to take a drive through the country and see how green everything has become.

A popular Gleichen sport these days is finding mushrooms. There are lots of 'em.

Some of the old houses around town should be moved to the reservoir for a dressing room. The kids have no where to dress or undress except in cars or behind the dam.

The picture show has reduced the price to 25c. for both adults and children. This should help increase the attendance as now one can see two shows for the price of one. In future the pictures for Gleichen will be shown on Tuesday nights instead of Saturdays.

Miss Frances Grant of Sceptre, Sask., is visiting with Miss Irene Phillips for a few weeks.

Mr. and Mrs. Ralph Whitney left Monday morning for Ontario by motor. Mr. and Mrs. Whitney will make their home there permanently.

Rev. and Mrs. Corcoran and family have moved to Three Hills where Mr. Corcoran will take charge of the United Church there.

A large number of our Blackfoot brothers and sisters left last week to attend the Calgary Stampede and take part in it. The Indians love pomp and circumstance.

Mr. and Mrs. Fred Telford, of Vancouver arrived in Gleichen last week to spend a short time visiting friends and relatives in Gleichen and Cluny.

Mr. and Mrs. Jas. Telford, left Monday morning for Calgary and after spending a few days there will motor on to their home in Vancouver.

Mrs. J. Lester's sister of St. Paul Minn., spent a few days visiting Mr. and Mrs. Lester.

Miss Eileen Fleak has returned from Seattle and will spend the holidays at the home of her grandparents Mr. and Mrs. J. Koefoed.

TWO QUEENSTOWN HOMES DESTROYED

Last Saturday night at Queenstown fire completely destroyed two houses, the homes of R. C. Asselstine and T. F. Stone, and for some time seriously threatened the greater part of town. A bucket brigade prevented the fire spreading to the next house. It is believed to be partly covered by insurance.
